To whom it may concern:

Announcement of the line up for Recycled Pulp contain products

In order to secure the stable supply for Recycled Pulp contain products, we hereby inform our products line up as follows.

【Background】

Due to the high demand from oversea, many of domestic used paper are now exporting to oversea and we are facing with difficulty to secure used paper in Japan.

Therefore, the consideration of the line up for Recycled Pulp contain products is necessary.

In addition, used paper volume in domestic is also decreasing due to paper demand down in Japan.

We used to be supply 100% Recycled Pulp contain products in the past but now the situation in Japan has changed as above.

Therefore, we decided our stance to use used paper as effective as possible.

【New scheme】

Due to the background above, we set "ECO GREEN" series as our standard Recycled Pulp contained products. "ECO GREEN" series are over 80% Recycled Pulp guaranteed products applicable with "Green Purchasing Law" in Japan.

We also will continue to supply "GREEN 100" series but only when we can collect certain order volume. Detailed order condition need to be discussed each time when customer order.

* Due to the change of situation for the future, further reconsideration may be needed.

【Line up】

- Standard Recycled Pulp contained products (ECO GREEN series)

Coated Paper (Kasugai mill)	KOTE N ECO GREEN MATT KOTE ECO GREEN
Uncoated Woodfree Paper (Kasugai mill)	PRINCE ECO GREEN
